

## LIGHTS BLAZED ON WATERFRONT

(From Wednesday's Advertiser.)

Illuminated in outline from bulwarks to trucks, the two cruises Soya and Aso, of the Imperial Japanese squadron, presented a spectacular appearance last evening on the occasion of Admiral Ichi's dinner in honor of Governor Frear and Mayor Fern, at which were present representatives of the naval and military services stationed in Oahu. The flag ship Soya was in gala attire, for the dinner was given in the cabin of that vessel to which the Admiral recently transferred his flag. The after deck over which the canvas canopy was drawn was decorated in a novel manner. Along the ridge pole were beautiful Japanese lanterns. Flags and pennants were strung in an artistic manner.

The special decorations were a matter of pride to the officers and a source of admiration from the guests.

In the stern of the afterdeck was a scene representing the most famous of Japan's scenic points—Hutani ga Ura. Two rocky points appeared in the foreground, the highest topped with a torii. A cable swung between the two. Beyond was a painted scene representing an inland scene with little vessels showing and in the background a Sunburst Flag was shown cleverly to represent the rising of the sun over the scene. Another scene was that of Amanohashidate, second in importance only to Hutani ga Ura. Cherry blossoms were shown in profusion, as also were chrysanthemums. The decorations were all done by the enlisted men.

Probably the most original feature was the fountain playing in the harbor between the two vessels, just at the end of the Naval dock. From the harbor waters a curving jet shot high in the air, the spray falling back upon a floating islet of ferns and flowers. The novelty of this feature drew applause from the guests, as nothing like it had ever been attempted here before. The Japanese band played throughout the dinner which lasted from 8 to 10 o'clock.

The naval and military officers were in dress uniforms, as were the Admiral, and his staff and the commanders of the two cruises. Besides Admiral Ichi, Captains Sato and Ishii, Commander Sakamoto and Lieutenant Shimamura, there were present Governor Frear, Mayor Fern, Consul General Uyeno, Captain Corwin P. Rees, U. S. N.; Lieut. Comdr. Moses, U. S. N.; Captain Gleave, U. S. N.; of the U. S. cruiser St. Louis; Colonel Walter S. Schuyler, Fifth Cavalry, U. S. A.; Major Dunning, 20th Infantry, U. S. A.; the British Consul, Ralph G. E. Forsberg; Hon. S. M. Damon, Hon. A. C. Cleghorn, Prof. M. L. Scott, W. O. Smith, L. Tenney Peck, J. A. McDaniel, Gerrit Wilder, J. F. Morgan and James F. Wakefield.

This evening the Admiral tenders a dinner to Consul General Uyeno and a few prominent Japanese residents. The illuminations will not be shown tonight, as the vessel is due to sail tomorrow for Hakodate.

### Lurline Sails Friday.

The Matson steamship Lurline will return from Hilo in time to finish loading here and leave for San Francisco on Friday at 6 p. m. The Lurline will carry 7000 bags of sugar, several thousand cases of canned and crated pineapples, bananas and other fruits. About 70 passengers are booked. Miss Wilhelmina Tenney, daughter of E. D. Tenney, president of Castle & Cooke, agents for the Matson line, goes on the Lurline to officiate at the christening ceremonies of the new Matson steamship at Newport News, the vessel to be named after her.

### A FAIR EXCHANGE.

Large sums of money are no doubt realized from simple speculation, but the great fortunes are derived from legitimate and honest business—where the goods furnished are worth the price they bring. Certain famous business men have accumulated their millions wholly in this way. Prompt and faithful in every contract or engagement they enjoy the confidence of the public and command a class of trade that is refused to unstable or tricky competitors. In the long run it does not pay to cheat or deceive others. A hambug may be advertised with a noise like the blowing of a thousand trumpets, but it is soon detected and exposed. The manufacturers of **WAMPOLE'S PREPARATION** have always acted on very different principles. Before offering it to the public they first made sure of its merits. Then, and there only, did its name appear in print. People were assured of what it would do, and found the statement truthful. To-day they believe in it as we all believe in the word of a tried and trusted friend. It is palatable as honey and contains all the curative properties of pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It aids digestion, drives impurities from the blood, and is effective in Anemia, Debility, Lung Troubles, Influenza, and all Wasting Complaints. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil in a most palatable form." It is a scientific remedy and a food with a delicious taste and flavor. The bottle is convincing. Sold by druggists.

## WILL CENSOR THEIR PICTURES

(From Wednesday's Advertiser.)

With but one exception, the managers of every moving picture show in up-town Honolulu has decided to impose a very strict censorship on all films before they are shown on the curtain. Public opinion for a time was ready to rise up in arms against the display of suggestive pictures, and the managers of the Empire, the Gem, the Aloha, and the Park, stated yesterday that they would carefully inspect all films before they were shown, and throw out those that might prove objectionable. The manager of the Art Theater, Mr. Lawson, stated that his pictures were all right and that he intended to keep them in the future just as they are at the present.

"The people like pictures that are spicy," said Lawson yesterday. "They like a dash of spice. If there are any prudes who don't like the class of pictures I am showing let them stay away. They don't have to come to my shows. I don't need them."

Manager Overend of the Empire stated that he made it a point to look over his films before they were shown and that in the past he has thrown out many as unfit for use here. He stated that he had repeatedly cautioned the agents from whom he secured his pictures to send only the best stuff here, but they sent the pictures according to numbers, never giving the subject of the picture a thought. Overend said that he would in the future impose a strict censorship on his pictures.

On about the first of April a censorship over all the pictures made in the United States will come into effect here as the result of a crusade started against the indecent pictures which were being shown on the mainland. The censorship has already been begun over pictures which are being shown in the States, a committee of the New York civic bodies, with John Collier, of Collier's magazine as chairman, conducting the work. The films which have passed this censorship will not, however, reach Hawaii until about the first of September.

In the meantime, the managers of all the local theaters but one have fallen in with the proposition to sharply censor their pictures. Manager Kube, of the Gem, said that, while he could not recollect that any pictures having a suggestive trend had been shown in his place, he would keep a very close watch in the future.

Manager Condon, of the Park Theater, said that he had lost money numbers of times by the fact that he has refused to put on the pictures which were sent him from the Coast. Manager Overend, of the Empire, also stated that he had been put to considerable loss from the fact that he did not feel it would be right for him to show certain of the films sent him from his agents on the mainland.

While some of the moving picture men held yesterday that the Bystander article in the Advertiser last Sunday did them an injustice, they were mostly willing to regulate their businesses in the future.

## MEN JUMPED; WOMEN MET DEATH AND INJURY

A verdict of accidental death was rendered by the coroner's jury impaneled to consider the Koolau railroad accident of last Saturday, in the case of Mrs. Sylvester, who was killed on that occasion. From the testimony it seems that people from Kahuku were en route to Laie to attend a dance. Another party started from Kahuku to make a visit near Haunala. Both parties started about the same time from each end of the line, each party on a handcar.

The Kahuku car carried a light and when the persons on the Kahana car saw it coming the men jumped off letting the car run away down grade. The women sitting on the car were caught, Mrs. Sylvester being killed and a part Hawaiian woman receiving a broken leg. Other women were cut and bruised.

The people on the Kahuku car did all they could for the injured and sent a car to Kahuku for the plantation doctor who returned on the plantation company's engine.

## STRIKER GROWS UGLY AND LANDS IN JAIL

Because he made threats to kill two Japanese strikers who wished to go back to work on Kahuku plantation, Kamao Kono, a member of the Higher Wage Association, was arrested at Punahoa yesterday by the police there and brought to this city. He is now lodged in the city bastille.

Kamao Kono is one of the most radical type of the strikers, according to information at hand, and when he learned that the two Japanese workmen in question intended to go back on the plantation, told them that he would kill them if they did. Kamao was brought from Punahoa by the officers at that place.

Sheriff Jarrett expects that the witnesses against Kamao will be brought from Windward Oahu this morning or afternoon. So far as the Sheriff knows, the two who were threatened will be the only ones brought over, but his information regarding the case is rather meager as yet.

### Transport Due Monday.

The transport Sheridan which left Nagasaki June 21 for Honolulu is expected by the quarantine office about Monday. The transport's wireless may get in touch with the Kahuku station about Friday. The vessel is carrying a full list of passengers and trunks and very little room is left for passengers from here. Captain Shippey and Captain Chapman and probably Major Dunde and family may leave on the Sheridan for the Coast.

## WORLD'S ARTISTS AND ORATORS FOR THE GLORIOUS FOURTH

Everything is progressing favorably in the matter of Honolulu's celebration of the glorious Fourth of July this year. As the Fourth falls on next Sunday, the celebration proper will be held on the following day, but Sunday will not altogether be slighted. Services have been arranged to be held in Central Union church in the evening, and a special program, which is being arranged by Dr. Scudder, will be rendered. One of the features of the Sunday evening program will be the address by Dr. Thomas Green, who will give his high-class lecture entitled "The Red, White and Blue."

Adjutant General J. W. Jones, had a conference with George R. Carter, Col. Schuyler of the Fifth Cavalry, and others yesterday, with the result that the makeup of the parade was arranged. There will be one squadron and the band from the Fifth Cavalry, troops from Fort Shafter, a battalion of United States Marines, and the National Guard of Hawaii in the parade.

While the line of march has not yet been definitely decided upon, the tentative plans are for the military organizations to form at the corner of Miller and Hotel streets, march through the Executive building grounds to King street, along King to Fort, then to Beretania, from Beretania to Nuuanu, then to Merchant, and along Merchant street to Palace square, where the troops will be reviewed by Governor Walter F. Frear. After this ceremony, the troops will be dismissed, and the exercises begun in the Opera House. It is planned to have the parade start between 9:30 and 10 o'clock in the morning. The National salute will be fired by the National Guard.

Immediately following the parade will come the exercises of the day. These will be held in the Opera House which W. G. Irwin has donated for the occasion. Marshall Darrach, the Shakespearean reader, who has made such a decided impression in this city, has been secured to read the Declaration of Independence. Governor Frear will then introduce Dr. Thomas Green, who will repeat his lecture of the previous evening.

The committee having the celebration exercises in hand, of which George R. Carter is chairman, have hopes of securing Charles Bennett, the singer with the Withers company, to sing "Columbia."

Where the fireworks will be shown on Monday evening has not yet been definitely decided. It is probable, however, that they will be fired from a raft stationed out some distance in the water off Waikiki beach. Some members of the committee are in favor of shooting off the fireworks in the Gore, it being argued that more people will be enabled to see them from this point. The chances are, however, that the fireworks will blaze at the beach.

## INDEPENDENT REFINERY MAY COME TO COAST

NEW YORK, June 9.—According to a story told in lower Wall Street yesterday, certain independent sugar refining interests are considering the proposition of competing for business with the combination on the Pacific Coast, where the Western Sugar Refining Company and the California-Hawaiian Sugar Refining Company, which are supposed to work in harmony, now have everything their own way. These talked-of plans have not yet taken definite shape, although it is pointed out by an official of one of the independent concerns that unless the current high prices quoted for sugar in San Francisco by interests now in control of the situation there are lowered to conform with those prevailing in the East, it will not be long before plans looking to the erection of plants at San Francisco will be decided upon.

In reply to a question on the subject the head of a large sugar refining concern, in speaking about this matter yesterday, made the following statement to a representative of this journal: "As the situation stands now, refined sugar in California, where there is no competition, is bringing something like 5.50c, without the refiners having to pay any duty on sugar coming from the Hawaiian Islands. This compares with 4.85c, the price ruling in this market, where there is much rivalry for business. In other words, the combination on the Coast has everything its own way, and for that reason it is disposed to obtain the highest price possible for its sugar. This has invited considerable criticism among many persons in the trade, and I don't mind telling you that certain parties who are prominently identified with independent refineries in the East are discussing the advisability of extending their operations to the Coast. This depends, of course, on the refusal of those in control of the situation on the Coast to readjust the prices and to place the market on a more equitable basis. The freight rate between the Hawaiian Islands and San Francisco is about 14c per hundred pounds."

"There are two cane sugar refining companies on the Coast—the Western Sugar Refining Company, which is jointly owned by the American Sugar Refining Company and Messrs. Adolph and John D. Spreckels and the California-Hawaiian Sugar Refining Company, which was originally started by Hawaiian planters. It is believed that H. O. Havemeyer was interested in the latter project. There are also some beet sugar plants there. These concerns on the coast, according to the popular impression, work in harmony. This accounts for the fact that they are enabled to get a relatively higher price for their product in California than the refiners quote in this market. It is generally believed that Adolph and John D. Spreckels are not on friendly terms with Rudolph and C. A. Spreckels. The last named is president of the Federal Sugar Refining Company."

W. B. Thomas, president of the American Sugar Refining Company declined to be interviewed in regard to the matter. However, a man in touch with the affairs of the so-called Sugar Trust declared that if any such plan was carried out by outside interests it would probably lead up to an aggressive trade war.

## MADAME PELE IS TO BE COURTED BY MANY SAVANTS

Professor Jaggar, the eminent volcanologist, accompanied by Professor Reginald Daly, of Boston, well known in geological circles, departed for the Volcano House yesterday on the Mauna Kea. Professor Jaggar will conduct Professor Daly over some of the ground he is already acquainted with, and Professor Daly will remain a month or six weeks, and possibly two months on the island, during which time he will endeavor to scale Mauna Kea and Mauna Loa and some of the lesser mountains, making a geological study of them. Professor Jaggar returns to Honolulu next week in order to leave for the mainland on the Mongolia en route to Boston.

In September, Professor Jaggar will return to Honolulu accompanied by a Professor Hosmer, who will be his chief assistant in the scientific project which has in view a close study of the volcano of Kilauea, the lava, both molten and cooled, the gases, heat, etc. Professor Hosmer will bring some

very fine and delicately adjusted instruments to determine the chemical composition of the gases exhaled by Kilauea, as well as to take the temperature of the glow emanating from the pit of Halemaumau.

While Professor Jaggar was in Japan and on his present scientific tour of observation, there has been a change of presidents of the Massachusetts Institute of Technology. Professor Daly in discussing the proposition to establish an observation station at Kilauea, discovered that the new president was thoroughly in accord with the proposition to make a close study of Kilauea, and this in the absence of any report from Professor Jaggar.

This is not only the best of news to Professor Jaggar, but to President Morgan, L. A. Thurston and other gentlemen of the Chamber of Commerce who have taken hold of the proposition and are raising the funds to carry on the work. Half of the necessary amount to start the work has been raised.

## STREET CAR AND AUTO IN MIX-UP

Owing to a lack of attention to the importance of caution at street car crossings an accident occurred yesterday afternoon about 5:30 opposite the Moana Hotel, the occupants of an automobile narrowly escaping injury. An auto driven by a doctor was coming out of Hon. A. S. Cleghorn's lane to Kalakaua avenue when a street car bound for town came along the track. There was no time to get out of the way and the trolley car's fender caught the machine and dragged it some distance, until the auto struck a telephone pole. Something had to give and the auto gave. But by this time the street car had been brought to a standstill.

The occupants of the auto, including two ladies, jumped from the machine and were not hurt. The damage to the machine will amount to about \$50.

Sugar on Hawaii as reported by the Mauna Loa paper is as follows: Honolulu, 1000; Hilo, 1000; Kilauea, 1000; Hana, 1000; Kahuku, 1000; Paahoa, 1000; Pepee, 1000; Kilauea, 1000.

## JAPANESE HOTELS RAIDED BY FENNELL

License Inspector Fennell and two members of the detective force descended upon the two Kuku street Japanese hotels last night and interfered seriously with a number of little dinner parties going on. Acting under search warrants he went through the Hirano and the Maimoto houses, finding booze in the ice chest of the former and lots of it on the short-legged tables in the various diningrooms of the latter. Among the diners were two prominent Japanese of Honolulu, an officer from the Japanese cruisers and several geishas.

No arrests were made last night, but as a result of the searches, some will probably be made today.

### REMEMBER THE NAME.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is just what its name implies. For pains in the stomach, cramp, colic or diarrhoea, it has no equal. For sale by all dealers, Hanes, Smith & Co., agents for Hawaii.

## ORDERS LUNCH FOR HUNDREDS

Seven hundred and fifty passengers of the 18,000-ton steamship Cleveland will be lunched at the Royal Hawaiian Hotel at noon, January 23, 1910, and the same number are to be served with lunch at the same hotel again on February 12.

Acting Manager Foster of the Young Hotel has received a letter from Clark, head of the Cleveland's Tours, who are handling the Cleveland's Around the World Tour, asking that preparations be made to serve lunch to this great host of visitors. Some months ago the proposition was taken up by Clark with the management of the Young Hotel, but it was thought to be too big for the hotel to handle. Then came the idea to utilize the Hawaiian Hotel and to this end the kitchens will be opened and the guests served at two sittings in the big dining hall. Ewa lani and the two circular banais.

The Cleveland will arrive here the morning of January 23 and her passengers will spend most of the day sightseeing, including a visit to the Aquarium. After lunch the travelers will be taken to Waikiki where surf board riding canoe races and various aquatic sports will be enjoyed.

The vessel sails for San Francisco the following evening. The vessel will return with an entire new list of 750 passengers on February 12, reversing the itinerary back to New York.

Clark is quite enthusiastic over the great tour, and in order to accommodate the big list of people who have booked he had to substitute the Cleveland for the Arabia. It is believed that he will run smaller cruises to the Pacific as intermediate tours.

Clark has also arranged with the Pacific Mail company to handle a large number of the Cleveland's passengers who propose to stop off in Honolulu for a few weeks, and then resume the trip to San Francisco on a Pacific Mail steamer.

## SUPERVISORS TO CONTROL SCHOOLS

Superintendent of Public Instruction Babbitt is putting the finishing touches to the plans made necessary by the last Legislature transferring the control of the schools to the County Boards of Supervisors. With the exception of the Lahainaluna Seminary, and the Normal School, the county supervisors are to have the absolute control, care and maintenance of the public schools throughout the Territory.

Act 100 passed by the last Legislature states that "each county shall provide for the maintenance and repair of all existing schoolhouses other than the Lahainaluna Seminary." Act 101, relating specifically to the powers and duties of the Board of Supervisors of the City and County of Honolulu states "that it shall be the duty of the Board to provide for the maintenance and repair of all existing schoolhouses other than the Normal School and the Boys and Girls' Industrial Schools," all of which goes into effect tomorrow, the beginning of the new biennial period.

### May Change Sites.

These laws will give the supervisors full control over everything but the teachers and the curriculum, and in its broad application it is presumed to mean that the supervisors will also have the power to change the schoolhouse sites, if they so desire.

Superintendent Babbitt is affording the county authorities all the assistance possible in providing for their assumption of new responsibility, and while he is careful not to commit himself as to whether he thinks the idea of the Legislature a wise one and will work out well, the Territory is ready to give the wisdom of its experience to the supervisors in dealing with the problem.

Requests for information on a number of points have been received by Superintendent Babbitt and he is aiding the county fathers to the best of his ability.

"Do you think the plan will work out wisely and well," was the query propounded to Superintendent Babbitt. "You couldn't get an answer to that question unless you caught me napping," was reply.

## ASCH AS JAILER; KAIA ASSISTANT

Julius Asch is the man Sheriff Jarrett has named as Jailer at the Honolulu jail, the institution which will come under the direct control of the City and County on July 1. As his deputy at the jail, Sheriff Jarrett has named George Kaia, who has been assistant foreman on the Advertiser for considerable time past.

Both these appointments are on their merits, according to a statement made by the Sheriff last evening. George Kaia is well-known as a square, upright and reliable man, and Julius Asch, says Jarrett, "needs no introduction to Honolulu."

With regard to the other appointments, the Sheriff has not yet come to any decisions. He has numerous applicants for the other places he has to fill, but he has not decided on them yet. There will be two turnkeys and six guards appointed at the Honolulu jail, and then there are the jailers for each of the five other districts of the city and county. The Sheriff may make his selections with regard to these to day.

Judge Woodruff, recently appointed second Federal Judge here, is expected to arrive from the Coast on the Mauna Kea today. A considerable lot of work is all ready for him to take up in the Federal Court.

## ELEVEN-YEAR-OLD SNEAK THIEF

(From Wednesday's Advertiser.)

"Eleven years old and he can give cards and spades to any sneak thief in the Territory."

This is the way Chief Joe Leal sizes up an undergrown little Hawaiian whom he took into custody the other day, thereby clearing up the mysterious disappearances of money and other small articles at the Central Grammar School. Kupuna is the youngster's name, and he is the champion rascal for his age, according to Honolulu's Chief of Detectives. As a result of his age, too, the prodigy is now at liberty on broken parole.

Not content with stealing money from individuals, Kupuna has confessed that he pilfered the poor-box at the Catholic church, getting a pretty good sum of money. Another time Kupuna visited the Salvation Army headquarters where a meeting was being held, and he came away \$10 richer than when he entered. He had stolen the money from a lady who was sitting in the seat just in front of him. This matter was considerable of a mystery until yesterday, when Kupuna confessed up.

According to his confession, Kupuna has gotten away with over \$50 in cash altogether since he started in the "profession." Of this, \$10 was taken from Mrs. McKenzie, who has a private school for Korean children in the city. Mrs. McKenzie suspected Kupuna, and it was through her complaint that Joe Leal was able to break the little rascal's run.

He is audacious, and even went so far as to demand of Apuna whether or not the detectives had a warrant for his arrest. Though not yet in his teens, Kupuna has smashed all known records for out-and-out lying. He lied up and down to Joe Leal, without the slightest flicker or change of countenance. It did not take long, however, to get him entangled in his stories, and then he confessed it all.

Besides his thefts of cash, Kupuna has been a terror to hen-nests and chicken roosts on upper Liliha street for considerable time past. He told of robbing various places along Liliha street.

Chief Leal took the youthful burglar into custody Monday afternoon but, of course, under the new Juvenile law, was unable to hold him overnight. The boy has no father, only a partly-demented mother, and when Leal let him go at eight o'clock Monday evening he made him promise to return to the police station yesterday. This Kupuna promptly forgot to do, and, although Leal and Apuna both had their eyes open looking for him all day yesterday, he was not to be found.

What to do with him when he catches the youthful thief again is a question that is bothering Leal. He is convinced that the only place for Kupuna is the Reform School, as he is absolutely incorrigible. If he is found before on thirty this afternoon, Leal will bring him before Judge Whitman, who he sent to the W. School where he will stay until he has a chance to forget how to steal.

On the other hand, if the boy is found until late in the afternoon, he can not do otherwise than to go until the following day. It is one particular, it is said, that the Juvenile law is not working out successfully.

The boy thief had not a cent of the money he has stolen on his person when Leal searched him the other day, and it is the belief of the Chief that he has lost it all shooting craps. The boy says that, save for \$2 for a suit of clothes which he wore, he had not spent any of the money at the stores. That he may have cached the remainder is another theory.

## TREASURER OF STRIKE FUND ROBBED OF WAD

Complaint reached here from Wainala yesterday to the effect that the Treasurer of the Higher Wage Association at that place had been robbed of \$600, the total amount of funds on hand. This sum was made up of the contributions to the strike fund by the strikers. Although the authorities were rather skeptical regarding the matter, High Sheriff Henry sent his deputy, Chester Doyle, down yesterday afternoon to make an investigation.

The report, which came from the Higher Wage Association's Treasurer, is not looked on as a very serious thing. It appears rather significant when the fact is taken into consideration that this is about the end of the month, and the probabilities are that the fund for support of the strikers is growing a little short. The alleged theft might be used as an excuse to bleed the supporters of the strike for more cold cash.

### HAWAIIAN DAY AT SEATTLE.

Seattle Times, June 13.—Speed Agent Childs of the department of commerce and labor, representing the government at the Hawaiian building, did that Hawaiian Day at the exposition, set for August 24, would mean practically a name only, so far as attendance of Hawaiians is concerned. The people of the islands probably will not be able to get transportation in time to reach the fair by that date.

All Pacific Mail boats touch at Honolulu on the way over from San Francisco and reservations now asked for by Hawaiians are not granted for a day less than three months from the time of request. Many persons want to come to Seattle, he says, but find it impossible.

There is only one hop laid out to Hawaiians now, and that is that the Canadian Pacific boats, which stop at Honolulu en route to Vancouver and Victoria from Australia may be found not to be crowded.

Saintthill Hardy-Whit, who has arrived in London on a visit after 45 years service in India, holds the world's record as a snorter of tigers. He has 150 to his credit.
